

REMARKS

The above amendments were made in reply to the Notice of Omitted Items in a Non-Provisional Application mailed on June 14, 2004. The Drawings, Fig. 3A-3B, that were accidentally omitted upon submission of the application are not necessary for the understanding of the subject matter sought to be patented (See 37 C.F.R. 1.83). Figures 3A-3B illustrated the results of Example 1 and do not add or subtract any subject matter to the application since the results were discussed in Example 1. Furthermore, the Applicant did not want to forfeit the filing date already received by this Application.

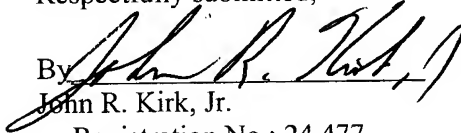

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application to issue.
